

## Pioneer RESA

### Professional Learning Inclement Weather Procedure

In the event of inclement weather, it is the responsibility of course participants to check the status of any classes in which they are enrolled through the Pioneer RESA website or by phone. A scrolling notice will be placed on the website and a phone message will be placed in the automated phone system. If Pioneer RESA is closed, all classes scheduled at Pioneer RESA will be cancelled for the duration of the closure. If a course is offered off-site, Pioneer RESA classes will follow the actions of the **host** school system.

Participants in all courses are encouraged to use discretion in the event of inclement weather as road conditions may vary from one location to another. Your safety is our first concern. Should a class not be cancelled and you are unable to attend due to road conditions in your area, please contact your instructor as soon as possible.

Your instructor will provide you with additional information regarding inclement weather procedures at the beginning of a course.
