Dr. Benson,

I am sure you are aware that I officially retired on October 1, 2019. I appreciate the every minute spent as a Resa/Futures faculty member. I know I helped improve the quality of life for the students Karen and I served. I am thankful for the training, the speakers during Academy, the constant up lifting reminders. I have many areas of expertise, as you mentioned recently. The skills I learned at Futures added to my multiple skill set.

I will say that school based classrooms have challenges that the centers do not have. Those challenges need to be addressed and those teachers supported. We often think because we are listening to others we are supporting them. That is part of the formula, but far from the answer.

Please, feel free to share my retirement news with my peers. It is celebration worthy, given my 28 .3 years of service to the State of Ga, making it ok to share with others.

If you would like to schedule an exit interview, email me. I know it is part of your goal with staff retention.

Thank You
Cheryl
