

Jessica Jones

10-24-19

I feel like it is not a good fit due to the fact I feel unsafe. The student I am paired with can be very violent and sends people to the hospital. You are supposed to run away but there is nowhere to go. Student dose know sign language therefore I used sign language with him most of the day, until Mrs Guest said we are not suppose to interact with him. he became angry the for a 15-30 mins the it was fine for him to leave I was told we are to just follow him and let him do whatever and make sure I stay alive by the end of the day. I sign up to help children and they will not let me help him and said that is the only ~~place~~ pair and rules I'm allowed to do. I can not stay there and do nothing for him because what they are doing for him now is hurting him in the long run and putting staff and other students in danger.
